R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
## temperature      pressure
## Min.      : 0    Min.      : 0.0002
## 1st Qu.: 90    1st Qu.: 0.1800
## Median :180    Median : 8.8000
## Mean      :180    Mean      :124.3367
## 3rd Qu.:270    3rd Qu.:126.5000
## Max.      :360    Max.      :806.0000
```

Including Plots

You can also embed plots, for example:

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.
